### **Aleksandr Filippov, Chair**

My name is Aleksandr, and as Chair of this chapter, it is my mission to not only provide a social outlet to the students at SUNY Polytechnic Institute, but also to educate students on the various opportunities AVS has to offer them now and in their careers. I am a Junior studying Nanoscale Engineering which makes AVS all the more applicable to me and my peers.

### **Dan Fort, Vice Chair**

I'm Dan, I'm a junior, and I've been democratically elected to serve as the vice chair for this branch. I hope to expand the reach of AVS across the student base, and make it a central hub for students seeking to enrich themselves intellectually and socially, and hoping to make connections that will aid them when they prepare to enter the workforce. I'm aiming to make AVS a core part of any student's life, as an aid to help them navigate the waters of their future. I look forward to a year of engaging events and activities.

### **Joshua Ferris, Treasurer**

My name is Joshua Ferris and I was elected to be the treasurer for this iteration of CNSE's chapter of AVS. I am currently a junior with a double major in Nanoscale Engineering and Mathematics. Through my work with this organization, I hope to provide new avenues for students connect with and better understand the high-tech industry they will soon be a part of through entertaining and stimulating events.

### **Philip Schuler, Event Coordinator**

My name is Phil Schuler, and I'm a junior in the Nanoscale Engineering program at CNSE. I've been a part of our AVS chapter for over a year now, and I really enjoy being able to make new connections through the organization and getting involved with the students here. I hope to help plan many great events this year and grow the chapter!
