

AVS Mid-Atlantic Chapter DC Regional Meeting

Thursday, May 15, 2014 9 am - 2 pm
Building 215 National Institute of Standards and Technology
100 Bureau Drive, Gaithersburg, MD

Learn about the advantages of membership in the AVS!

Highlight theme: Novel applications of Surface Science

Invited speakers report on regional research

- John Yates (U VA): Surface Science on Cosmic Dust
- Duming Zhang (NIST): Probing Topological Materials with Scanning Tunneling Microscopy
- Marcy Stutzman (JLab): High Polarization Photocathodes
- Steve Robey (NIST): Charge Separation at Small Molecule Donor-Acceptor Interfaces in Organic Photovoltaics

Equipment Exhibit—vacuum hardware and instruments

Poster Session open to graduate and undergrad students working in AVS research topics including:

Biomaterial Interfaces
Electronic Materials & Processes
Magnetic Interfaces & Nanostructures
MEMS & NEMS
Surface Science
Thin Films
Vacuum Technology
Plasma Science

Cash Prizes
for the best
student posters

Pre-registration required -- RSVP deadline* May 7, 2014

*(foreign nationals are encouraged to apply early)
