

AVS MN Chapter Call for Abstracts

Virtual MN-AVS Annual Fall Symposium

On behalf of the AVS community and the MN AVS we invite all students to present their talks or posters at the **MN Chapter's Annual Symposium**.

Wednesday, September 15, 2021, 10 am - 3 pm.

Theme: Vacuum - the Enabling Science and Technology

This year's virtual symposium will include oral and poster contributions from students only. We invite both undergraduate and graduate students to participate.

All students will be automatically enrolled into competition for best Talk and Poster. Awards will include cash certificate and free AVS membership.

The deadline for abstract submission is Monday August 16, 2021

sponsored in part by: **Eurofins EAG Laboratories,
Medtronic and Physical Electronics**

The foundation of AVS is vacuum science and technology, which over the years has evolved into the use of controlled and sophisticated environments for quantitative measurements and processing of material surfaces and interfaces. If your work involves the development of controlled environments, the processing of interfacial systems, or quantitative interfacial analysis - from vacuum, to plasmas, to biological systems, then AVS is the venue where you need to present your work.

Abstract submission is via email only!

Each abstract should be a maximum of a single page in length. A second page containing figures or illustrations that support the abstract results may also be submitted. The abstract should be submitted as a MS Office Word document.

Please submit your abstract to Kateryna Artyushkova @
Kateryna.Artyushkova@avs.org
