The online forms serve as a guide to the type and amount of information the Award Committee needs to see to evaluate nominees. However, each nominee has their own story and impact. It is the challenge of the nominators to tell the critical story within the context of the questions and nomination sections described for each award. It is useful to tell the story, not just present a bunch of facts. Tell about the impact: help the Award Committee to know the candidate, his/her accomplishments, and his/her impact. Purpose

To recognize and encourage outstanding accomplishments in the fields of interest to AVS.

Eligibility

The nominee must have outstanding theoretical and/or experimental accomplishments within the ten years preceding the year in which the award is made. Nominees can be from academia, government, or industry, and special consideration will be given to nominees currently engaged in an active scientific/technical career.

In any given year an individual may provide a nominating or supporting letter for only one candidate for each award. The award will be granted without further restriction except that current members of the Board of Directors and the Awards Committee are not eligible. Further, no member of the Awards Committee may nominate or support any nomination. The AVS Awards Committee reserves the right to consider a candidate for a different award category.
